³ A low-bandwidth network file system

Athicha Muthitacharoen, Benjie Chen, David Mazières

October 2001 ACM SIGOPS Operating Systems Review , Proceedings of the eighte principles, Volume 35 Issue 5

Full text available: pdf(1.29 MB)

Additional Information: full citation, abstract, references,

Users rarely consider running network file systems over slow or wide-area ne unacceptable and the bandwidth consumption too high. Nonetheless, efficient desirable over such networks---particularly when high latency makes remote run interactive programs such as editors remotely, users could run the progra through the file system. To do so, however, wo ...

C-TODOS: an automatic tool for office system conceptual design B. Pernici, F. Barbic, R. Maiocchi, M. G. Fugini, J. R. Rames, C. Rolland October 1989 ACM Transactions on Information Systems (TOIS), Volume 7 I

Full text available: T pdf(2.88 MB)

Additional Information: full citation, abstract, references, citing

Designers of office information systems, which share various features with inf development, need to carefully consider special issues such as document and interfaces, and available technology. The ESPRIT Project, Automatic TOols for (TODOS), proposes an integrated environment for office design with tools for conceptual design, rapid prototy ...

The integration of virtual memory management and interprocess communic Robert Fitzgerald, Richard F. Rashid

May 1986 ACM Transactions on

ACM Transactions on Computer Systems (TOCS), Volume 4 Issue

Full text available: pdf(2.45 MB)

Additional Information: full citation, abstract, references,

The integration of virtual memory management and interprocess communicat kernel is examined. The design and implementation of the Accent memory m performance, both on a series of message-oriented benchmarks and in norma

6 4.2BSD and 4.3BSD as examples of the UNIX system

John S. Quarterman, Abraham Silberschatz, James L. Peterson
December 1985

ACM Computing Surveys (CSUR) Vol

ACM Computing Surveys (CSUR), Volume 17 Issue 4

Full text available: pdf(4.07 MB)

Additional Information: full citation, abstract, references, citi

This paper presents an in-depth examination of the 4.2 Berkeley Software Dis which is a version of the UNIX Time-Sharing System. There are notes through from the University of California at Berkeley. We trace the historical developm conception in 1969 until today, and describe the design principles that have g the internal data structures and ...

¹⁰ A high performance multi-structured file system design

Keith Muller, Joseph Pasquale

September 1991 ACM SIGOPS Operating Systems Review , Proceedings of the thirt systems principles, Volume 25 Issue 5

Full text available: pdf(1.40 MB)

Additional Information: full citation, references, citin

11 Decentralized storage systems: Farsite: federated, available, and reliable s environment

Atul Adya, William J. Bolosky, Miguel Castro, Gerald Cermak, Ronnie Chaiken, Jo Marvin Theimer, Roger P. Wattenhofer

December 2002

ACM SIGOPS Operating Systems Review, Volume 36 Issu

Full text available: pdf(1.87 MB)

Additional Information: full citation, abstract

Farsite is a secure, scalable file system that logically functions as a centralize among a set of untrusted computers. Farsite provides file availability and relia storage; it ensures the secrecy of file contents with cryptographic techniques; directory data with a Byzantine-fault-tolerant protocol; it is designed to be so mechanism and delegatio ...

12 Principled design of the modern Web architecture

Roy T. Fielding, Richard N. Taylor

May 2002 ACM Transaction

ACM Transactions on Internet Technology (TOIT), Volume 2 Issue

Full text available: pdf(335.47 KB)

Additional Information: full citation, abstract, refere

The World Wide Web has succeeded in large part because its software archite of an Internet-scale distributed hypermedia application. The modern Web arch component interactions, generality of interfaces, independent deployment of to reduce interaction latency, enforce security, and encapsulate legacy system Representational State Transfer (REST) arc ...

Keywords: Network-based applications, REST, World Wide Web

13 A method for incrementally compiling languages with nested statement strudy Earley, Paul Caizerques

December 1972

Communications of the ACM, Volume 15 Issue 12

Full text available: pdf(474.16 KB)

Additional Information: full citation, abstract, re

A method of incremental compilation is presented which applies especially to statements can be nested (such as Algol and PL/I). The method permits editin purpose text editor, and incremental processing of changes without frequent r essential points of the method are: (1) the syntax of the language is restricte lines; (2) an internal data struct ...

Keywords: incremental compiler, interactive programming language

14 Design of a SPDIF receiver using protocol compiler

Ulrich Holtmann, Peter Blinzer

May 1998 Proceedings of the 35th annual conference on Design automation c Full text available: pdf(348.72 KB)

Additional Information: full citation, abstract, refere

This paper describes the design of a receiver for the digital audio signal SPDIF done with Protocol Compiler, a high-level synthesis tool for the design of stru Compared to traditional RTL design, Protocol Compiler makes entry, debuggin by factor 2 while the results in terms of area and delay are competitive.

Keywords: high-level synthesis, telecommunication

¹⁵ Client-server computing in mobile environments

Jin Jing, Abdelsalam Sumi Helal, Ahmed Elmagarmid
June 1999 ACM Computing Surveys (CSLIR) Vo

ACM Computing Surveys (CSUR), Volume 31 Issue 2

Full text available: pdf(233.31 KB)

Additional Information: full citation, abstract, references, c

Recent advances in wireless data networking and portable information applian computing, called mobile computing, in which users carrying portable devices services regardless of their physical location or movement behavior. In the m access in mobile environments has proliferated. In this survey, we provide a c the various way ...

Keywords: application adaptation, cache invalidation, caching, client/server, d mobile applications, mobile client/server, mobile compuing, mobile data, mob

¹⁶ Operating systems: DualFS: a new journaling file system without meta-data Juan Piernas, Toni Cortes, José M. García

June 2002 Proceedings of the 16th international conference on Supercomput Full text available: pdf(213.64 KB)

Additional Information: full citation, abstract, referen

In this paper we introduce DualFS, a new high performance journaling file sys different devices (usually, two partitions on the same disk or on different disk ways. Unlike other journaling file systems, DualFS has only one copy of every meta-data device, a log which is used by DualFS both to read and to write me time-expensive extra copy of meta-data b ...

Keywords: DualFS, journaling file system, meta-data management

5 of 7 12/12/03 10:16 PM

17 Model-driven development of Web applications: the AutoWeb system

Piero Fraternali, Paolo Paolini

October 2000 ACM Transactions on Information Systems (TOIS), Volume 18
Full text available: pdf(6.94 MB) Additional Information: full citation, abstract, references,

This paper describes a methodology for the development of WWW application tailored for the methodology. The methodology and the development environm techniques already used in the hypermedia, information systems, and softwar in an original mix. The foundation of the proposal is the conceptual design of notation for the specification of structure, nav ...

¹⁹ Scheduling algorithms for modern disk drives

Bruce L. Worthington, Gregory R. Ganger, Yale N. Patt

May 1994 ACM SIGMETRICS Performance Evaluation Review, Proceedings of the Measurement and modeling of computer systems, Volume 22 Issue 1
Full text available: pdf(1.01 MB)

Additional Information: full citation, abstract, references,

Disk subsystem performance can be dramatically improved by dynamically or Via strongly validated simulation, we examine the impact of complex logical-t caches on scheduling effectiveness. Using both synthetic workloads and trace environments, we arrive at three main conclusions: (1) Incorporating complex provides only a ma ...

6 of 7 12/12/03 10:16 PM

²⁰ Designing a trace format for heap allocation events

Trishul Chilimbi, Richard Jones, Benjamin Zorn

October 2000 ACM SIGPLAN Notices, Proceedings of the second international sym

36 Issue 1

Full text available: pdf(1.53 MB)

Additional Information: full citation, abstract, citing

Dynamic storage allocation continues to play an important role correctness of systems ranging from user productivity software While algorithms for dynamic storage allocation have been stuliterature is based on measuring the performance of benchmar many important allocation-intensive workloads. Furthermore, t been proposed for publishing and exchangin ...

23 Broadcast protocols to support efficient retrieval from databases by mobile Anindya Datta, Debra E. VanderMeer, Aslihan Celik, Vijay Kumar

March 1999 ACM Transactions on Database Systems (TODS), Volume 24 Iss Full text available: pdf(638.48 KB)

Additional Information: full citation, abstract, references, cit

Mobile computing has the potential for managing information globally. Data m have received some attention in recent times, and the design of adaptive brao important problem. Such protocols are employed by database servers to deci dynamically, in response to client mobility and demand patterns. In this pape propose efficient retrieval s ...

Keywords: adaptive broadcast protocols, client-server computing, energy con

²⁴ Virtual machine monitors: Xen and the art of virtualization

Paul Barham, Boris Dragovic, Keir Fraser, Steven Hand, Tim Harris, Alex Ho, Rol October 2003 Proceedings of the nineteenth ACM symposium on Operating sys Full text available: pdf(168.76 KB) Additional Information: full citation, abstract, refere

Numerous systems have been designed which use virtualization to subdivide Some require specialized hardware, or cannot support commodity operating s compatibility at the expense of performance. Others sacrifice security or funct isolation or performance guarantees; most provide only best-effort provisionin presents Xen, an x86 virtual machine monit ...

Keywords: hypervisors, paravirtualization, virtual machine monitors

²⁵ Tools and approaches for developing data-intensive Web applications: a surprise Fraternali

September 1999 ACM Computing Surveys (CSUR), Volume 31 Issue 3
Full text available: pdf(524.80 KB) Additional Information: full citation, abstract, reference

The exponential growth and capillar diffusion of the Web are nurturing a nove by a direct business-to-customer relationship. The development of such applic development and Hypermedia authoring, and challenges the existing tools an paper investigates the current situation of Web development tools, both in th identifying and characte ...

²⁶ The duality of memory and communication in the implementation of a multi

M. Young, A. Tevanian, R. Rashid, D. Golub, J. Eppinger

November 1987 ACM SIGOPS Operating Systems Review , Proceedings of the eleve systems principles, Volume 21 Issue 5

Full text available: pdf(1.26 MB)

Additional Information: full citation, abstract, references,

Mach is a multiprocessor operating system being implemented at Carnegie-Me of the Mach design is the use of memory objects which can be managed eithe through a message interface. This feature allows applications such as transac decisions regarding secondary storage management and page replacement. Th implementation of Mach and it ...

27 An analytic model of hierarchical mass storage systems with network-attac

Daniel A. Menascé, Odysseas I. Pentakalos, Yelena Yesha May ¹⁹⁹⁶ ACM SIGMETRICS Performance Evaluation Review , Proceedings of the

conference on Measurement and modeling of computer systems, Volum Full text available: pdf(974.81 KB)

Additional Information: full citation, abstract, reference

Network attached storage devices improve I/O performance by separating con intervention during data transfer. Devices are attached to a high speed netwo network for control messages. Hierarchical mass storage systems use disks to tapes (robotic and manually mounted) to store the bulk of the files in the file network models can be used to assess t ...

²⁸ Annotea: an open RDF infrastructure for shared Web annotations

José Kahan, Marja-Ritta Koivunen

April 2001 Proceedings of the tenth international conference on World Wide Web Full text available: pdf(271.46 KB)

Additional Information: full citation, references, citings, index term

Keywords: RDF, World-Wide Web, XML, XPointer, annotations, metadata, sem

²⁹ The open archives initiative: building a low-barrier interoperability framework

Carl Lagoze, Herbert Van de Sompel January 2001 Proceedings of the f

Proceedings of the first ACM/IEEE-CS joint conference on Digit

Full text available: pdf(356.96 KB)

Additional Information: full citation, abstract, reference

The Open Archives Initiative (OAI) develops and promotes interoperabil ity so dissemination of content. The roots of the OAI lie in the E-Print community. O extended to include all content providers. This paper describes the recent hist E-Prints, the broadening of its focus, the details of its technical standard for m standard, ...

Keywords: digital libraries, interoperability, metadata, protocols

30 Network security: Efficient packet marking for large-scale IP traceback Michael T. Goodrich

November 2002 Proceedings of the 9th ACM conference on Computer and comm Full text available: pdf(239.98 KB)

Additional Information: full citation, abstract, refer

We present a new approach to IP traceback based on the probabilistic packet call randomize-and-link, uses large checksum cords to "link" message fragme checksums serve both as associative addresses and data integrity verifiers. Th cords is that they spread the addresses of possible router messages across a to easily create messages th ...

Keywords: denial-of-service, packet marking, traceback

³¹ Anatomy of a native XML base management system

T. Fiebig, S. Helmer, C.-C. Kanne, G. Moerkotte, J. Neumann, R. Schiele, T. Wes December 2002 The VLDB Journal — The International Journal on Very Lar Full text available: pdf(300.97 KB)

Additional Information: full citation, abstrac

Several alternatives to manage large XML document collections exist, ranging database systems to specifically tailored XML base management systems. In t database management system designed from scratch for storing and processi belief that management of XML data is just another application for traditional illustrate how almost every component in a ...

Keywords: Database, XML

Session 4: Web service applications: Towards securing XML Web services Ernesto Damiani, Sabrina De Capitani di Vimercati, Pierangela Samarati November 2002 Proceedings of the 2002 ACM workshop on XML security Full text available: pdf(198.65 KB)

Additional Information: full citation, abstract, refere

Security is currently one of the main concerns about XML Web services. Sever at achieving a standardized way for supporting integrity, confidentiality, and a paper looks into these approaches and gives some hints for future research.

Keywords: SOAP, Web services, access control

³³ Token coherence: decoupling performance and correctness

Milo M. K. Martin, Mark D. Hill, David A. Wood

May 2003 ACM SIGARCH Computer Architecture News, Proceedings of the 30th a Computer architecture, Volume 31 Issue 2

Full text available: pdf(269.08 KB)

Additional Information: full citation, abstra

Many future shared-memory multiprocessor servers will both target commerc "glueless" designs. Implementing low-latency cache coherence in these syste approaches either add indirection for common cache-to-cache misses (directo interconnect (traditional snooping protocols). Unfortunately, totally-ordered in glueless designs. An ideal coherenc ...

³⁴ UIO: a uniform I/O system interface for distributed systems

David R. Cheriton

January 1987

ACM Transactions on Computer Systems (TOCS), Volume 5 Is

Full text available: pdf(3.20 MB)

Additional Information: full citation, abstract, references, citin

A uniform I/O interface allows programs to be written relatively independentl a wide variety of the I/O services available in a distributed environment. Idea access without excessive complexity in the interface or loss of performance. H from careful design of individual system interfaces alone; it requires explicit d

³⁵ Application performance and flexibility on exokernel systems

M. Frans Kaashoek, Dawson R. Engler, Gregory R. Ganger, Héctor M. Briceño, Ru Pinckney, Robert Grimm, John Jannotti, Kenneth Mackenzie

October 1997 ACM SIGOPS Operating Systems Review , Proceedings of the sixteen principles, Volume 31 Issue 5

43 Adaptive block rearrangement

Sedat Akyürek, Kenneth Salem

May 1995 ACM Transactions on Computer Systems (TOCS), Volume 13 Issu

Full text available: pdf(2.27 MB)

Additional Information: full citation, abstract, references, citin

An adaptive technique for reducing disk seek times is described. The technique

An adaptive technique for reducing disk seek times is described. The techniqu their original locations to reserved space near the middle of the disk. Referen advance. Instead, they are estimated by monitoring the stream of arriving req seek times can be cut substantially by copying only a small number of blocks been implemented by modi ...

Keywords: data clustering, data replication, seek optimization

44 PLEXUS— an on-line system for modeling neural networks

J. C. Dill, D. L. Randall, I. Richer

September 1968

Communications of the ACM, Volume 11 Issue 9

Full text available: pdf(926.62 KB)

Additional Information: full citation, abstract, ref

A description is presented of PLEXUS, a system which enables a user to const analyze the output data produced by the network, and to store and retrieve n system, operated entirely from a digital display unit, interacts directly with th transitions between the various phases of the modeling process. PLEXUS is de research so that the systematic devel ...

Keywords: biological modeling, data analysis, discrete system simulation, libr simulation, neural networks, neurophysiological models, on-line simulation, s

45 Safely executing untrusted code: Upgrading transport protocols using untruparveen Patel, Andrew Whitaker, David Wetherall, Jay Lepreau, Tim Stack October 2003 Proceedings of the nineteenth ACM symposium on Operating sys Full text available: pdf(248.86 KB)

Additional Information: full citation, abstract, refere

In this paper, we present STP, a system in which communicating end hosts us upgrade each other with the transport protocols that they use to communicate type-safe version of C, distributed out-of-band, and run in-kernel. Communic use as part of a TCP-like connection setup handshake that is backwards-comp connection setup latency. New transports ...

Keywords: TCP-friendliness, deployment, implementation, transport protocols

46 Automatic metadata creation: Automatic document metadata extraction usi Hui Han, C. Lee Giles, Eren Manavoglu, Hongyuan Zha, Zhenyue Zhang, Edward May 2003 Proceedings of the third ACM/IEEE-CS joint conference on Digital li Full text available: pdf(200.52 KB) Additional Information: full citation, abstract, ref

Automatic metadata generation provides scalability and usability for digital lib learning methods offer robust and adaptable automatic metadata extraction. classification-based method for metadata extraction from header part of resea other machine learning methods on the same task. The method first classifies of 15 classes. An iterative converg ...

47 ARIMA time series modeling and forecasting for adaptive I/O prefetching Nancy Tran, Daniel A. Reed

June 2001 Proceedings of the 15th international conference on Supercomput Full text available: pdf(485.27 KB)

Additional Information: full citation, abstract, reference

Bursty application I/O patterns, together with transfer limited sa major I/O bottleneck on parallel systems. This paper explore forecast application I/O request times, then prefetching I/O recto hide I/O latency. Experimental results with I/O intensive scientprovements compared to standard UNIX prefetching strategi

Keywords: I/O, access pattern, modeling, prefetching, times series

48 Experiences with the Amoeba distributed operating system

Andrew S. Tanenbaum, Robbert van Renesse, Hans van Staveren, Gregory J. Sh December 1990 Communications of the ACM, Volume 33 Issue 12

Full text available: pdf(2.71 MB)

Additional Information: full citation, abstract, references, citi

The Amoeba project is a research effort aimed at understanding how to conne [16, 17, 26, 27, 31]. The basic idea is to provide the users with the illusion o when, in fact, the system is implemented on a collection of machines, potenti This research has led to the design and implementation of the Amoeba distrib as a prototype and veh ...

49 BIIF, VRML and CGM

Bernadette Kuzma, George S. Carson, Richard F. Puk, John Gebhardt May 1999 ACM SIGGRAPH Computer Graphics, Volume 33 Issue 2

Full text available: pdf(1.58 MB)

Additional Information: full citation, abstract,

This edition of the Standards Pipeline consists of three articles that provide an important international standards. In the first article, Bernadette Kuzma of SE Interchange Format (BIIF) formally known as ISO/IEC 12087-5:1998. While B is beginning to find wider applications in areas ranging from electronic librarie article, Richard F. Puk of In ...

50 Metamodeling in EIA/CDIF---meta-metamodel and metamodels

Rony G. Flatscher

October 2002 AC

ACM Transactions on Modeling and Computer Simulation (TOMAC

Full text available: pdf(434.96 KB)

Additional Information: full citation, abstract, refere

This article introduces the EIA/CDIF set of standards for the modeling of infor computer-aided software tools of different vendors. It lays out the meta-meta which are fully depicted in a hierarchical layout and annotated with the uniqu modeling concepts. The article also stresses the fact that EIA/CDIF has been international standard, the ISO/ ...

Keywords: CASE Data Interchange Format, CDIF, EIA, clear text encoding, lan system design

⁵¹ A system for automatic personalized tracking of scientific literature on the \ Kurt D. Bollacker, Steve Lawrence, C. Lee Giles

August 1999 Procee

Proceedings of the fourth ACM conference on Digital libraries

Full text available: pdf(123.52 KB) Additional Information: full citation, references, citings, index terms

Keywords: citation index, information filtering, knowledge representation, use

52 Acknowledgment procedures at radio link control level in GPRS

Wessam Ajib, Philippe Godlewski

August 1999 Proceedings of the 2nd ACM international workshop on Modeling, ana systems

Full text available: 🔁 pdf(1.02 MB)

Additional Information: full citation, references, citin

53 Distributed stream control for self-managing media processing graphs Lisa Amini, Jorge Lepre, Martin Kienzle

October 1999 Proceedings of the seventh ACM international conference on Multime Full text available: pdf(511.49 KB)
